## To Whom It May Concern

I am writing this recommendation with great pride and enthusiasm to endorse Ms. Spurti Nimbali currently a student of grade 12 studying at Delhi Public School R.K. Puram for the Pradhan Mantri Rashtriya Bal Puraskar 2024.

Ms. Spurti Nimbali is an exceptional individual who has showcased remarkable talent and unwavering dedication in her pursuit of scientific knowledge. Her groundbreaking innovations have not only earned her recognition but have also brought honor to our community and nation.

One of her most outstanding accomplishments is the development of DysDiag, a digital tool designed for the early diagnosis of learning disorders. I was delighted to learn that Spurti represented India at the International Science and Engineering Fair in Dallas, Texas this year, where her project, DysDiag, stood out among thousands and received the Special Award from the American Psychological Association. Her endeavors to address such a prevalent and vital issue as Learning Disorders in children, and her success on a global platform, are truly commendable.

Spurti's achievements further extend to her participation in the IRIS National Fair, where she secured the Grand Award, triumphed in the International Grand Award category in the Technovation Girls Challenge, excelled in the CSIR Jigyasa Vigyan Mohotsav organized by the Ministry of Science and Technology, and was recognized as a National Winner in the automation category at the Smart India Hackathon Junior Competition by the Ministry of Education, Innovation Cell.

Furthermore, Spurti's commitment to improving the lives of children with learning disorders has led her to establish the Abled Learning Foundation, a noble organization dedicated to this cause. Her ongoing work in this field holds the promise of transforming the lives of numerous young children across our nation.

I have every confidence that Spurti's innovative mindset has the potential to make a lasting impact. Individuals with such creativity and ingenuity are the future of our country and undoubtedly deserve encouragement and recognition. I am wholeheartedly committed to supporting and championing initiatives that empower our youth to pursue their dreams and aspirations. Therefore, without reservation, I enthusiastically recommend Miss Spurti Nimbali for the esteemed honor of being recognized by the Government of India as a Bal Puraskar Awardee.

Sincerely,

Dr. P. V. Bhandary
