**TO WHOM SO EVER CONCERNED**

It gives me immense joy to write this letter in order to recommend Miss Spurti Nimbali for the 'Pradhan Mantri Rashtriya Bal Puraskar Award 2023'.

I was very much delighted upon getting to know about Spurti and her research and innovations. Both 'EpiCare' and 'DysDiag' are commendable projects. The mobile application, EpiCare, is a wonderful initiative that can revolutionise the lives of epileptic patients. As a doctor, I understand the major role an application like this can play at a time of emergency. On the other hand, DysDiag is a project that can change the lives of so many young children in our country. I was amazed at the idea of using technology in making the arduous task of detecting learning disorders so much more efficient and convenient.

Spurti's efforts to use technology to aid the medical sector are truly admirable. As the State Program Officer / Joint Director (Ayushman Bharat-Arogya Karnataka) of Department of Health and Family Welfare, GOK it is a matter of immense pride for me that a young girl from our state is striving to such great heights. I am rest assured that her innovative mind is capable of creating an everlasting impact. Ingenious and creative minds like her are the future of our country and need to be motivated and appreciated. I strongly believe that the passion and hard work that has gone behind creating these technologies is applaudable, and would definitely act as a source of inspiration for other youngsters of her age. Hence, it is with no hesitation that I strongly recommend Miss Spurti Nimbali for the honour of being recognised by the Government of India as a Bal Puraskar Awardee.
